Accident on Commuter Train Near N. O. Causes Excitement Among Passengers

MRS. T. T. ROBIN LOSES FATHER AT HOUMA, LA.

Funeral services were held Monday at 9 a.m. for John C. Corbin, father of Mrs. T. T. Robin of Bay St. Louis, who died Sunday morning at the Ellender Memorial Hospital in Houma, La.

Mr. Corbin was a native of Union Church, Miss., was in his 77 year. He had been suffering with a heart ailment for the past eight months, and was moved from his home to the hospital when he became critically ill last week.

During his career in the construction business in Louisiana which he started at Jeanerette he lived at Mansfield, Natchitoches, Mer Rouge and Ferriday. He had made his home in Houma since 1934.

Mr. Corbin was active in Masonic and Shrine affairs and constructed a number of the larger school buildings throughout the state of Louisiana. Services which were held from the Chauvin Funeral Home in Houma were followed by Masonic Rites at the Methodist Church in Jeanerette and interment in the church cemetery.

In addition to Mrs. Robin, Mr. Corbin is survived by his widow, the former Miss Alva Neal of New Iberia; three sons, Edward C. and Charles M. Corbin of Houma and Carl McArn Corbin II of New Orleans; a brother, Carl McArn Corbin of Bayport, La.; three sisters, Mrs. Herbert A. Christensen and Miss Vivian Corbin of New Orleans and Mrs. E. H. Singreen of Bay St. Louis and 12 grandchildren.

Passengers on the evening commuter train from New Orleans last Friday were startled when an unidentified vandit hurled a missile through a coach window at a spot just outside of New Orleans.

George Lehtinen, resident of Bay St. Louis, suffered minor cuts on the head and neck from shattered glass as did several other passengers sitting near the window.

Conductor Harry Cooley of Ocean Springs stopped the train after a sharp report was heard and a large hole appeared in one of the coach windows. He reopened the incident to L&N officials.

A search was made to determine whether the missile was a bullet or a rock but no trace of it was found inside the car. It was assumed that due to the high rate of speed at which the train was traveling the object had struck the window a glancing blow and dropped to the side of the track.

A check of passengers in the car who had been covered with shattered glass revealed that cuts inflicted were not of a serious nature and the train proceeded on its way.

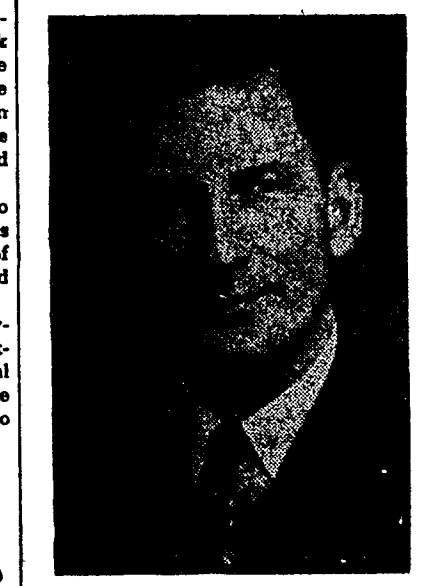

Later, trainmen disclosed that several trains had been vandalized recently near this location and that special operatives of the L&N Railroad are keeping a close watch in an effort to apprehend the guilty party.

Ross R. Barnett, Jackson Lawyer, In Governor Race

Jackson Attorney Ross R. Barnett is the sixth candidate to enter the race for governor in Mississippi.

The 52-year-old Barnett announced his candidacy this week.

Mr. Barnett's statement follows: "I have traveled over the State of Mississippi and number many friends and acquaintances from practically every community. I have talked with people from all walks of life. I understand their many problems, and am convinced that with this understanding I can discharge the great responsibilities entrusted to a governor. I am 52 years of age and in the prime of my abilities to discharge the full responsibilities of

my citizenship. In 1928 I married Mary Pearl Crawford, formerly of Polk County, Mississippi, and we have been blessed with three fine children, two girls and one boy. With Divine guidance I will join hands with my fellow citizens and those whom you elect as your representatives in the Legislature in launching a progressive and constructive program that will lead to the solution of many of our problems and the happiness and welfare of all.

The Governor of Mississippi serves in a capacity which provides the opportunity of leadership in fostering and directing a great agricultural and industrial development and a development that will reach into the homes of one and all and enable every Mississippian to enjoy a higher standard of living and a greater abundance of the good things of life.

With an earnest desire on my part, if given an opportunity, to be of unselfish service to my State and all of its people, I hereby announce my candidacy for the office of Governor of the State of Mississippi, subject to the will of the Democratic electors in the coming Democratic primary.

I will wage a most vigorous and intensive campaign, carrying my message direct to the people in every community in Mississippi.

The principles and Christian ideals for which I stand I believe to be most wholesome and constructive. These principles will be announced and discussed at the proper time.

"Nursery Rhymes" Theme of P-TA Mardi Gras

"Nursery Rhymes" is the theme of the P-TA parade and carnival this year with a large number of floats already entered and many more expected before entries are closed.

The Mardi Gras, which is scheduled for Shrove Tuesday, February 6, is the fourth to be held here and reports of the progress of the various committees indicate that the festival will be fun for all this year.

Plans of the court committee, which selected the court from the eighth grade of Bay High School are very interesting and the public is looking forward to an entertaining pageant in Bay High gym, where the program will be held after the parade.

The decorating committee has been hard at work to present a spectacle pleasing to the crowd that is expected at the gym.

In the morning there will be block dancing on Second Street between Carroll Avenue and St. George Streets from 10:00 until 12:00 noon with refreshments and prizes for makers.

The route of the parade will follow the one established last year with the line up starting at 1:00 p.m. on the South side of Bay High School. From there it will move east on Carroll Ave. to North Beach and south on the beach to Main Street. It will proceed west on Main to the court house where the king will toast the queen and thence west to Natchez and south to Union Street.

At Union the parade will turn east on Second Street and will move up Second to the High School where the presentation of the court and pageant will take place. This will be followed by dancing until 6:00 p.m.

Horsemen and bicyclists are invited to take part and general masking is urged so that the "eat drink and be merry" spirit for which the refreshment committee is doing their part may prevail.

Anyone who wishes to enter a float in the parade may still do so by calling Mrs. Paul Miller at 735-J.

Dr. and Mrs. A. P. Smith left Thursday for Miami, Fla., where they will spend several days as guests of Dr. Smith's brother, Mr. H. T. Smith.

Truck-Load Of Liquor Hijacked Near Here Monday

Federal, state and local authorities are investigating the reported hijacking Monday of a liquor cargo on US Highway 90 14 miles west of here.

Investigating officers reported that a two-ton truck, laden with approximately 300 cases of whiskey valued between \$15,000 and \$20,000 was hijacked by three unidentified men armed with a shotgun and pistols.

Occupants of the truck, listed as Elton Ladner and W. B. Evans, the latter a Negro, both of Gulfport, told officers that their vehicle traveling eastward from New Orleans, was stopped by an automobile using a siren.

Ladner and the Negro said they were forced into the auto and held captive for more than two hours while blindfolded and bound, being released in a wooded section to the south of the highway. They made their way to Lake Shore and notified authorities.

It was reported later that the truck had been located near the Santa Rosa Community, which is near the Hancock-Pearl River County line, but the contents had been removed. No trace has been found of the liquor.

Mr. Benigno said that upon hearing a shot he investigated and found the body of Douglas near the door of the night club.

HIGHWAY PATROLMAN ACCIDENTALLY SHOTS SELF WEDNESDAY

After leaving his work at the State Highway weighing station around 10:00 a.m. Wednesday, William Cook, Highway Patrolman, proceeded to Benigno's cabins where he makes his home.

While undressing, his pistol became dislodged from the holster and dropped to the floor. The impact caused the gun to discharge, sending a bullet through the bridge of Mr. Cook's nose upward through his forehead.

The attending physician, who removed fragments of the shell from the injured man's head stated that while Mr. Cook is apparently in good condition there would be a necessary lapse of 24 hours before anything definite could be said.

At the hospital, Patrolman Cook, who is from Prentiss, is reported doing nicely.

SJA Carnival Ball Plans Nearing Completion

Most exciting week of the year in Bay St. Louis is the week before the annual Carnival ball, to be held this year on Friday, February 2, when most of the citizens of Bay St. Louis are trying to guess who the king and queen of the Carnival will be.

Rumors are flying thick and fast this year as usual with one man's guess as good as another's since only a very small group are "in the know" as to who the rulers will be.

The ball this year is reported to be even more spectacular than usual with a theme that is definitely out of the ordinary.

The pageant which will be put on by the children promises entertainment well worth the admission price of \$1 and a large crowd is expected to turn out for what is the year's outstanding social event in Bay St. Louis.

The decorating committee headed by Mrs. Gertrude Saucier with Mrs. Nelson Ducombe as assistant have been hard at work on the stage set and decorations for the auditorium proper.

Lucien Raymond who is constructing the set has assisted him Jaubert Fuchich and Tom Karl is doing the construction work in the auditorium with the able help of Elad Assenheimer, Earle Wiegand, Paul Tourne, and Arthur Chapman. Mrs. Saucier reports that the Superior Supply Co. has been very generous in donating material for the stage set.

Assisting Mrs. Saucier on decorations is a large group of women composed of Mesdames Lawrence Jacobi, Horace Kergosien, Laurent Kergosien, J. S. Blanchard, K. Y. Assenheimer, George Anderson, H. P. Monti, W. G. Gaudet, Tom Karl, Hugh Ryland, J. P. McEvoy, Nellus Rhodes, John Dembarino, Octave Delph, Ina Piazza, Rene Bernard, A. G. Favre, Maurice Arigue, Jean Heitzmann, John Joyce, Larry Laroux, Waldo Otis, Donna Pierce, Henry Chapman, Walter Duquequier, Kenneth Pepperdine and Noel Wicker.

The fact that there will be 300 more seats available this year for which the building was donated by Ed Brignac and the material half by Walter Gax and half by Dick Mestayer will provide comfortable seating arrangements for many of those who have previously had to stand during the pageant preceding the dancing.

RUMORS TO BE DISREGARDED

Another rumor concerning the activation of the local Army Reserve unit is being circulated in our midst. Stories such these are started from mere hearsay by persons who cannot possibly have any knowledge of the status of this or any other unit. Citizens are urged once again to disregard any such gossip as a baseless falsehood. It is also asked that these stories not be repeated as such action only tends to spread uneasiness and could easily lead to terrible repercussions.

Captain Don McCulloch, Commanding officer of Co. B, the local unit of the ORC has reassured the troops that in case of any change in their status, everyone would be notified through proper channels, and officially by officers in charge. He emphasized the need to discourage the rumors at the start and not repeat them.

WITNESSES BACK GREYHOUND STAND

Express Satisfaction with Service

Biloxi, Miss.—Witnesses for Greyhound recently testified before the interstate commerce commission's hearing on a petition by the Monroeville Trailways Bus Company to operate between New Orleans and Pensacola.

The witnesses, supporting part of 600 affidavits filed by Greyhound to show there is no need for additional service, expressed satisfaction with service offered by Greyhound.

Lloyd Collins of Grand Bay, Ala., who works in Mobile, caused a titter in the room when he testified that he usually boarded the 7 a.m. Greyhound bus for Mobile, but "when I want to sleep late sometimes," occasionally I took the 7:05 a.m. schedule. He declared existing facilities from Grand Bay to Mobile and return are, in his opinion, adequate.

The hearing, which has been in progress for more than two months, is expected to continue for several weeks.

BAY ST. LOUIS SHOWS BUSINESS LOSS IN RECENT MONTHS

Recently a New Orleans newspaper published a story to the effect that certain prominent citizens were instrumental in ridding Bay St. Louis and Hancock County of gambling and that since that time business had shown an increase. Well we doubted this statement at the time, but had no figures to back our belief to the contrary. That instead of an increase business was actually on the downgrade here, and we now have figures to prove what we believed to be true at that time and even now.

According to the Mississippi Business Review, published by the Mississippi State College research station, the general business data collected from the five cities in this district, placed business activity for November, in this district as a whole, 18.9 percent above that for the corresponding month the previous year. Breaking this down to take in the towns individually, they are as follows:

Biloxi, 32 percent increase; Gulfport, 11.7 percent increase; Piquette, 34.1 percent increase; Pass Christian, 2.2 percent increase; BAY ST. LOUIS, 6.8 PERCENT LOSS.

We are not generally in favor of gambling, nor do we believe gambling helps business, but we do want to prove that business certainly has NOT increased in any way, when official figures show that our general business activity has decreased nearly seven percent and at the present time shows no visible signs of improving.

What this town needs to get it back on its feet is to get money into circulation, and not until we do that is business going to show an upward trend. The business people themselves show no inclination to help themselves, but seem content to sit idly by while our trade goes to neighboring cities. Are we going to let this continue? Think it over, folks!

NOT A CONDEMNATION — SIMPLY A NEWS STORY

In our last week's issue we published a news story reporting on the meeting of the Bay St. Louis Little Theatre, held on last Tuesday night, January 16th, for the purpose of electing officers for the year, 1951, and the awarding of Oscars for individual performances and direction during 1950.

In the writing of the story, our reporter went on to say, "... the thought was presented (at the meeting) that it might be well to discontinue the awarding of Oscars due to the fact that a very small minority in the theatre, unwilling to stand on the merits of their achievements, were in the habit of soliciting votes for themselves or their casts, a procedure to be condemned as foreign to the spirit in which the awarding of Oscars was first conceived."

This was published simply as a report of what transpired at the meeting and not as a condemnation of any individual or group. We think too highly of the work the Little Theatre group has done in our community and what it has meant to Bay St. Louis, to criticize the individual efforts of its members or its method of operation. We hope to see it continue pleasantly and harmoniously and will at all times lend our efforts in its behalf.

Letters written to the editor of this paper will be published as long as they bear the signature and address of the writer. We will not, under any circumstances, publish anonymous letters.

LETTERS

Editor
Hancock County Eagle
Sir:

In your account last week of the activities of the Bay-Waveland Little Theatre activities, you remarked on the awarding of Oscars. Please let me say that I am completely in agreement with you. I was on the Board of the Little Theatre when the suggestion to award Oscars was first made. I opposed it then, and I have opposed it ever since. It is patently impossible for people to judge fairly the merits of six plays when they have seen only four. It is also impossible, with amateurs such as we are, to have consistently even performances of each show. Therefore, it seems to me that the only equitable way to make the awards would be to have a certain part of the membership volunteer to see each play on the same night, and have them make the decisions, and even that would be open to question, since the unhappy business of "politicking" has crept in to something that should concern itself with artistic creation rather than prevarication.

I hope there will be some discussion of this in your paper.

AT THE STAR THEATRE

From the Drama Circle Award play by Tennessee Williams, "The Glass Menagerie," has been selected as the long-awaited production. Produced by the Chicago Theatre Group, the play is a masterpiece of modern drama. It is a story of a family of four, each with a special handicap. The father is a failed poet, the mother is a neurotic, and the daughter is a cripple. The play is a masterpiece of modern drama.

"The Glass Menagerie," which, reputedly carried off more prizes in a single year than any other play in the history of the Theatre, is the story of a middle-class family consisting of a mother of great spirit and indomitable will, her crippled daughter, whose only happiness is her collection of small animals, and a moody son who works in a warehouse while he dreams of the sea. How their lives are brightened and changed with the appearance of the "gentleman caller" makes for screen fare, termed in advance "one of the year's best."

Jane Wyman, as the lame girl, performs with the same ethereal quality she revealed in her Academy Award-winning role as the deaf-mute in "Johnny Belinda," while Kirk Douglas deviates from his standard rugged parts in the role of the sincere "gentleman caller."

Gertrude Lawrence, internationally famous actress known for her glamorous roles in the Theatre, plays the unadorned head of the family, and Arthur Kennedy, who scored in the Broadway success, "Death of a Salesman," portrays her restless son.

Featured in the film drama directed by Irving Rapper, are Ralph Sanford, Ann Tully, John Compton, Gertrude Lawrence, and Perdita Chandler. Screenplay for "The Glass Menagerie" was also written by Tennessee Williams.

We of United Gas have thousands of employees performing hundreds of acts every day in the production, transmission and distribution of natural gas. The result—dependable natural gas service for some 400 cities and towns and more than 2,000 industries, many of which are being called upon to help strengthen the defense of free nations against aggression. CATHOLIC NEWS SERVICE SAYS BAN ON ROTARY CLUBS ONLY
Washington, DC—A news service for Catholic Church publications quoted its Rome correspondent as saying the recent Vatican ban on priests' membership in Rotary Clubs applies only to Rotary and "not similar organizations."
The National Catholic Welfare Conference (NCWC) dispatch said "competent authorities" in Rome held that the ban is not a new action, is of universal application and is concerned with only Rotary clubs.
NCWC has its own staff of correspondents covering Catholic news for church publications. Its news stories are not official pronouncements by the church.
In saying the ban applied only to Rotary, the dispatch was at variance with an Associated Press story from Rome Jan. 12 which quoted an unnamed member of the supreme sacred congregation of the Holy office, which drew up the decree as saying it also applied by implication to all similar lunch groups throughout the world.
The NCWC dispatch said authorities in Rome "emphasize that the Vatican's ban on membership in, and attendance at, Rotary clubs applies only to priests and not to Catholic laymen." It added: "It is generally stated here that in Latin America, particularly, Rotary is usually associated with a form of Freemasonry which is actively hostile to the church."
Recently, Arthur Laguerre, president of Rotary International and a Roman Catholic living in Quebec, Canada, issued a statement in Chicago saying Rotary has "absolutely no connection with Masonry or any other organization."
Laguerre said Rotary assumes that the program of service of its 7,200 Rotary clubs in 83 countries is in accord with all religions.

UNESCO
The United Nations Educational, Scientific and Cultural Organization, known as UNESCO, operates in many fields of education, culture, science and the accomplishments of UNESCO. It has been the replacing of books, the rebuilding of libraries of war-torn countries and the building of schools in the countries to which they could go and repair their apparatus, the youth exchanged sponsored by the club and promoted by UNESCO. UNESCO has at last established a book store for small children. There are projects in Haiti and the Philippines testing the latest techniques of fundamental education for all.

There has been a seminar in Brazil on illiteracy and one in India on education. These projects are only at the request of the country concerned at the expense of their governments with UNESCO consultants in an advisory capacity.
WHO, or World Health Organization, has its aim the maximum of health for all peoples. Its most dramatic accomplishment has been in the cholera epidemic in the Far East, in which an epidemic of 1,000 cases a week was controlled in six weeks time through the use of WHO facilities, and in Italy malarial mortality was reduced from 150 in 1945 to 50 in 1947.
Both agencies have made a valuable contribution in many other ways to the progress of world civilization.
Mr. Hubbard, chairman of the study group concerning plans of study due to the rapidly changing world conditions and it was agreed to study matters of current interest to the UN at their session. Literature was distributed to those present.
The next meeting will be held at the home of Mrs. C. C. McDonald on Beach Blvd., on February 12, at 2 p.m.

MEMBERS ENTERTAIN CONGREGATION
Members of the Senior Guild, Christ Church Episcopal, entertained the congregation at a "Turkey Dinner" on Thursday evening, Jan. 18 at the parish house on Carroll Ave.
The dinner was prepared by the members of Chapter II who decorated the walls with tables where dinner was served with well camellias and who also helped to serve the delicious dinner provided for the guests.
Immediately following dinner a business meeting was held in the church with the Rev. Charles Johnson presiding.
Rev. Johnson gave first his parochial report after which other reports were made by the following: Harold Weston, treasurer, who gave the financial report; the report of the Women's Auxiliary which was made by Mrs. Erle Kirkpatrick, president of Chapter I and Mrs. Donald McCulloch, president of Chapter II. Mrs. Harold Weston, treasurer of both chapters gave the financial report of the two chapters. The Sunday School report was made by Henry Chapman, superintendent and the choir report by Mrs. Phillip Allison. The Young People's Service League by James Williams, president; the Parish School report by Mrs. W. W. Bertram with Richard Shadoin making the financial report of the school; the Layman's League report made by Don McCulloch, president and the report of the Parents' Club of Christ Church Parish School given by Mrs. Don McCulloch, president. A report on the children's choir was made by Mrs. Gordon Gleim and the Senior Warden report was made by N. L. Carter.
After this the Rev. Johnson asked for nominations for the three new vestrymen. Those elected to the vestry were George Lehlleitner, Arthur T. Christie and Kenneth W. Pepperdene.
This was followed by an election of delegates and alternates to the Diocesan council to be held in Jackson from Jan. 23 through the morning of Jan. 25. Mr. Weston who is vice-chairman for the laymen of Mississippi and is in charge of the laymen's dinner was elected with Mr. Shadoin and Mr. Carter serving as alternates.

The True Facts About P.M.A. Election

Held In Hancock County, Mississippi On November 18, 1950

The above election was set up and advertised as per regulations set out by State P. M. A. Committee, this being done by joint meeting of County and Community Committee-men of Hancock County, Mississippi. The above election as set up, was reviewed by Mr. W. T. Johnson, District Fieldman, who is a representative of the State P. M. A. Committee. Mr. Johnson advised the County Committee to be sure and get a representative number of farmers to vote in the above election because if the State Committee found that a representative number of farmers did not vote in the above election, then the State Committee could declare the election invalid.

When Mr. W. T. Johnson, Representative of the State P. M. A. was asked by the County P. M. A. Committee how to go about getting this representative number of farmers to vote in the election, he advised the County Committee that they could take the ballot box around to, and vote the farmers before election day. He stated that he had himself, on occasions, put the ballot box in his car, and went around and voted the farmers wherever he found them.

Then Mr. W. T. Johnson, Representative of State Committee, approved the election as set up and advertised, and advised Mr. T. M. Patterson, Executive Officer, P. M. A., Jackson, Mississippi so by telephone from County P. M. A. office, in the presence of the undersigned.

Now the County Committee's names were not on the ballot, and they were not asking for votes for any one on the ballot, therefore, we, the undersigned, conducted said elections as we were advised by Representative of State P. M. A. Committee. We contend that the County P. M. A. Committee was legally elected by delegates in convention as required by P. M. A. regulations set out by State P. M. A. Committee.

The State Committee suspended the County Committee without cause, and called a new election before it had a hearing on the one held on November 18, 1950. There was no protest against the election of the County Committee, only a protest against one delegate and three community committee-men. No charges of any irregularities were made against the conduct of the election except in one precinct, and the only charges of irregularity in this precinct was that the ballot box had been taken around to the farmers.

The above facts are given so that the farmers and other interested parties in Hancock County may know the true situation as it exists.

When Time Really Counts

The speed with which the doctor may be reached in cases of sudden illness or serious injury is one good reason for the general belief among rural families that the telephone is a farm necessity.
But the farm telephone earns its keep in a host of less spectacular ways—such as enabling you to secure repair parts or to get farm help quicker, or by helping you to keep better posted on market conditions and values.

For these and many other excellent reasons, Mississippians like their rural telephones. The best proof is the big gain in Southern Bell's rural subscribers—from 8,335 in 1946 to 34,235 as of January 1—a gain of 311 per cent in 5 years. In this time Southern Bell has spent more than \$7,300,000.00 for the extension and improvement of rural lines in Mississippi and we are continuing to invest more than \$1,000,000.00 a month in the extension of our rural service.

It's a big and expensive job to keep up with the demands for more rural telephones in Mississippi but we are keeping consistently at it.

Rester is busy preparing planting beds, first he laid off rows 6 feet apart on the contour, applied two tons of barnyard manure and 200 pounds of superphosphate per acre. Rester will finish planting kudza after planting beds are settled.
Rosa B. Shaw and Arthur Shaw of Crane Creek Community are digging kudza crowns from an old established patch to plant four acres of kudza on steep, well drained land. Many other farmers are busy planting additional kudza acreage for fall pastures.

PROOF POINTS
And I quote:
Said Franklin: "Three may keep a secret if two of them are dead."
Also: "Who has destroyed these 50 others as himself?"
Said Voltaire: "No sword bites so heavily as an evil tongue."
C. Simmons: "Ridicule is the first and last argument of fools."
Juvenal: "Revenge is the abject pleasure of an abject mind."
George Washington: "True friendship is a plant of slow growth."
Solon: "Reprove thy friend privately; commend him publicly."
Voltaire: "The infinitely little have a pride infinitely great."
Bovee: "The great obstacle to progress is prejudice."
Rivaroli: "It is not he that searches for praise that finds it."
Joubert: "Politeness smooths wrinkles."
Milton: "The virtue lies in the struggle, not in the prize."
Goethe: "If you would create something, you must be something."
Ruskin: "It is better to be nobly remembered than nobly born."
Virgil: "The noblest motive is the public good."
Seneca: "God divided man into men that they might help each other."
Cicero: "A man's own manner and character is what most becomes him."
Voltaire: "We cannot always oblige, but we can always speak obligingly."
Sir Walter Raleigh: "Better were it to be unborn than to be ill-bred."
Simerson: "Good manners are made up of petty sacrifices."
Seneca: "Malice drinks one half of its own poison."
Goldsmith: "Little things are great to little men."
Cicero: "Nothing is more disgraceful than insincerity."
Shakespeare: "One may smile and smile and be a villain still."
Aristotle: "There is a foolish corner even in the brain of the sage."
Napoleon: "He who fears being conquered is certain of defeat."
And thanks to these judicious men for today's sermon.
I find a card in my mail this week signed "A garden club member" asking me just exactly what sort of "wax" I referred to in a recent column for "shining" the leaves of plants. Humorously, she inquired as to whether I meant Johnson's Wax! No, I think I specified that it could be purchased in a florist's shop, (and I doubt very seriously if you could find the Johnson variety there). I must beg your pardon for referring to it as "wax." It really isn't wax at all. I must have gotten that impression from the waxy beauty it adds to foliage. Let me be more specific—my particular preference is made by "Flora-Life, Inc." 1433-37 E. Wabash Ave., Chicago, Ill., and the caption is "Makes 'em glow and grow." It is advertised as (1) producing a beautiful lustre, (2) promotes growth, (3) cleans leaves and dirt, (4) is an insect repellent. The earth surrounding the plant must be damp before this is applied. This is an important precaution! But the results are very gratifying. The plant leaves remain shiny and clean for as long as six months. At least I know of one case where they did in Florida. I inquired as to the healthy beauty of my hostess' philodendron and she recommended "Flora-Glow" and said "what particular application has been on there about six months." Of course, her house was (or is) in the center of a city block, surrounded by four paved streets, so that she isn't bothered by dust like most of us are. But, I live on a remarkably smaller scale where dust is a daily visitor and still I find the product very satisfactory. It does not seem to have an oily base at all to the touch—which is the reason, I suppose, why it doesn't collect dust, as I was

fortified for the evening with a couple of "dagwoods" under my belt and unable to eat the delectable dibble. (or vice-versa.) And on—"Try to gather congenial persons together." Simple—if they are all rank strangers. And on—"See that not one of your guests is left alone." This I labor over, for there is nothing more harrowing than to be left standing in "mid-air," so to speak. I was unavoidably guilty of it once and honestly, the same person got back at me just a few weeks ago after about fifteen years. I don't blame her—but I was innocent, after all. I think the most important thing is to make them feel at ease and then you can leave them safely for intervals, if necessary.
There is a secret to cooking chicken—a low temperature! High temperatures toughen poultry.
For something very special try cole slaw with salted peanuts and raisins in it. (Of course, leave out the onions and garlic.)
Tuesday morning—What a glorious, peaceful morning! A blessed sense of calm pervades my soul and then, in my effort to share this rich legacy, I reach deep down into my heart in search of a prayer that will, perhaps, help bring peace, understanding and a true sense of brotherhood to the whole world. Have you ever visualized a world with no aggression, no contests, no dictators or no headlong, headstrong human will? Shangri-La!
Well! Ruella May, I'm sorry—and all this time I thought it was Willa May!
